RETAILER CODE OF PRACTICE TRAINING

Retailer code of practice (COP) is a constantly evolving, requirement that can sometimes be difficult to interpret. As a consequence of this it can be challenging to keep your workforce well informed and up to date with.

Our application professionals can offer a full training suite tailored to your particular COP requirements

This may involve one or all of these skill sets:

- Routine Testing
- Fault Tracking
- Safety / Critical Examinations
- SME training
- Optimising Detection
- Maintenance
- Compliance
- Failsafe Testing

Training is typically conducted at your site in a small group, but can also be conducted off-site if preferred.
